

<https://hackzworld.xyz/marvel-future-revolution-hack/>

Marvel Future Revolution, developed by Netmarble, is the first action adventure RPG coming to mobile platforms like iOS and Android. Its free-to-play nature means that anyone will be able to play, ensuring that the game can reach as wide an audience as possible. This is certainly exciting for Marvel fans, who may be itching for a new game after Marvel Ultimate Alliance 3: The Black Order which released on the Nintendo Switch.

Eight characters are playable at launch, namely Storm, Captain Marvel, Captain America, Black Widow, Spider-Man, Doctor Strange, Star-Lord, and Iron Man. While this may not seem like much for a launch, Netmarble is working hard to ensure that the game will continue to be supported in the future.
